

What is EDM?

EDM is a genre of music that goes "oonts oonts oonts" and aims to make people dance. Hence, the abbreviation; Eleectronic Dance Music.

Its main characteristic, however, is that it is mainly electronic. Do keep in mind though, some musicians stray from the regular 100% electro and implement acoustic instruments much of their work. Such artists include Fox Stevenson, Essenger, and Owl City to name a few

So how much EDM should you listen to?

Glad you asked, here's a pie showing the exact numbers of Dubstep consumption rates of EDM.
